

A guided Tour: Art and Technology in Metro (2 h)

Join our inclusive tour designed for individuals with mobility challenges, including wheelchair and walker users. Explore newly constructed Länsimetro stations, featuring captivating art and cutting-edge technology. Discover local history, modern life, and unique stories, like the origins of charming station figures. Delve into the 1960s Concrete Brutalism and Space Race era, and witness Finland's longest escalators. Gain insights into public transportation history and metro construction marvels.

Information

- The meeting point is at the western terminus of the Länsimetro (Subway in the City of Espoo) at Kivenlahti metro station's main entrance "Kivenlahdentori" located inside the station building. The address for the Kivenlahti entrance is Meriusva 7, 02320 Espoo
- Your guide will be holding a sign to help you recognize them, and their contact information will be provided to all participants
- During our journey, we will use elevators and funiculars. We will also be partly outdoors, so it's important to dress appropriately for the weather conditions. However, in case of bad weather, the tour can be adapted to stay indoors.
- Please note that the travel time may vary depending on the group size and public transportation schedules. The goal is to travel in a way that allows an 80-minute single-ticket to cover the time spent within the paid metro area. The tour will conclude at the Finnöö Meritie entrance, and its address is Meritie 10.
- Participants are responsible for obtaining their HSL (Helsinki Region Transport) travel ticket unless otherwise agreed upon. The required ticket for the area is in the BC fare zone. We are happy to assist and provide guidance on ticket procurement.

Lisätietoja

Accessibility

On this tour, all pathways are wheelchair-accessible. This means there are no high thresholds or stairs on the routes. The width of the pathways and the use of several large elevators allow for smooth movement for the group. The maximum number of wheelchairs is 6, or alternatively, we will adjust the timing to accommodate more.

However, please note that the tour is not specifically designed for individuals with visual or hearing impairments. The guide uses a voice amplifier and always strives to speak in a space where visibility and audibility are smooth. The guidance and movement are characterized by a calm and considerate approach.

Responsibility

Evenio is committed to producing and providing services that actively promote the achievement of sustainable development goals. Through our operations, we aim to support the preservation of a balanced and diverse environment, ensuring a high quality of life for future generations.

Insurance

Evenio has liability insurance. We recommend that participants on our tours have their own personal insurance, especially for accidents and other unforeseen circumstances.
